SUMMARY

Highly focused software developer with 3+ years of experience in development positions. Organized and methodical with an eye for detail resulting in solid coding and trustworthy software programs.

EXPERIENCE

Software Engineer (L2)
Medi Assist   **May 2023 - Present, Bangalore, Karnataka**

· Crafted seamless and intuitive user experiences by leveraging React, Redux, NestJS, Docker and Kubernetes resulting in the creation of user-friendly applications and platforms.
· Thrived within a highly collaborative and agile team environment, closely collaborating with cross-functional teams to reshape healthcare and insurance offerings.
· Successfully delivered solutions that scaled to meet the demands of a rapidly growing user base, ensuring a seamless experience for thousands of users.
· Played a vital role in maintaining and optimizing cloud-based infrastructure on AWS, resulting in increased system reliability and performance.

Software Engineer
ElevateHQ   **December 2022 - May 2023, Bangalore, Karnataka**

· Led the implementation of clients' sales incentive platforms on ElevateHQ.
· Provided ongoing support to clients post-implementation, addressing any issues they encounter and ensuring that their sales incentive platform runs smoothly.
· Collaborated with cross-functional teams to gather requirements and deliver high-quality solutions within tight deadlines.
· Skilled in developing scalable and robust applications, with expertise in backend development using Node.js with Express.js as well as front-end development using React for building user interfaces, Redux for state management, and styling with Bootstrap, Tailwind CSS, and styled components.
· Experienced in working with a variety of databases such as PostgreSQL, MySQL, and MongoDB, as well as other technologies such as Firebase, Strapi, Supabase, Postman, Docker, Git and Github.

Software Engineer
Wipro   **June 2021 - December 2022, Bangalore, Karnataka**

· Proficient in Node.js, Express.js, MongoDB, MySQL, Mongoose, and Authentication and Authorization based on JWT and Google OAuth2.0. Skilled in using Docker, Git, GitHub, and GitHub Actions to facilitate development and deployment.
· Successfully handled client needs, maintained strong client relationships, and contributed to the growth of the client's business.
· Collaborated in an agile development team to deliver high-quality software solutions on time.

Software Engineer Intern
Mathongo   **December 2020 - June 2021, Bangalore, Karnataka**

· Developed an OCR Render Panel and Tracker Analytics Dashboard using the MERN stack (MongoDB, Express.js, React.js, Node.js), showcasing proficiency in cutting-edge web technologies.
· Collaborated seamlessly with a cross-functional team of developers to contribute to the backend development of

Quizrr, a high-traffic test-taking platform (https://www.quizrr.in/). The platform successfully accommodated over 18,000 concurrent users within a span of just 6 hours.
· Worked closely with senior engineers and mentors to learn and implement best practices in software development, enabling personal and professional growth throughout the internship.

PROJECTS

GitBook
https://adoring-ardinghelli-583489.netlify.app/
· A web app that helps to find GitHub users and provides relevant information related to them in a presentable manner. This web app uses react, context API for state management and GitHub API. It has been deployed on Netlify.

Portfolio Project
https://vijayprakash152.github.io/
· Portfolio website that aggregates all relevant information regarding my projects and skillsets.
· This project has been built using Next.js, styled component, depoyed on github pages and the CI/CD flow is managed through github actions.

ACHIEVEMENTS

Amazon HackOn Coding Challenge 2022
Amazon · 2022
· Secured AIR 43 among 19.5K+ participants.

EDUCATION

B.Tech In Civil Engineering
NIT Durgapur · Durgapur, West Bengal · 2021 · 8.20

SKILLS

React, Redux, Context API, NestJS, TypeScript, Docker, Kubernetes, AWS, Html, Css, Javascript, Node.js, Java, Angular
